

Clinical Pharmacist II

(Permanent, Full-Time)

About Us

What We Do

The Newfoundland and Labrador Centre for Health Information (the Centre) provides quality information to health professionals, the public, researchers and health system decision-makers. Through collaboration with the health system, the Centre supports the development of data and technical standards, maintains key health databases, carries out analytics and evaluation and supports health research. The Centre supports the regional health authorities, as well as the patients and communities they serve, in the delivery of information technology and eHealth services applied in the healthcare system to provide quality care. The Centre's mandate also includes the development and implementation of a confidential and secure provincial electronic health record as well as other provincial clinical information programs, including the change management required to support adoption by end user clinicians.

About the Role

Reporting to the Program Manager, Pharmacy Network, this position is accountable for:

- Provision of clinical expertise to promote and support the optimization and future development of the Pharmacy Network.
- Leverage knowledge of pharmacy process workflows, assisting in design and ongoing development of the Pharmacy Network.
- Liaise with other divisions within the Centre to provide operational support and pharmacy expertise.
- Work with multiple stakeholders to achieve common goals and vision.
- Work with Personal Health Information ensuring its privacy and accuracy.
