

## **Government Providing PPE for Universal Flu Vaccination Program**

The Department of Health and Community Services has advised that pharmacies participating in the 2020-21 Universal Flu Vaccination Program will be provided with PPE according to the national standard: masks and face shields. Details on ordering and/or distribution have not yet been made available.

Please note that we are also waiting on answers to a number of questions related to consent, wait times, and fee per injection.

PANL will share information as soon as we have it. If you have any questions, please contact Jennifer Collingwood at [jcollingwood@panl.net](mailto:jcollingwood@panl.net).
