

Ben's Pharmacy is an independently owned and operated pharmacy located in Stephenville, using the latest automation technology. We are growing our healthcare team and are looking for a Pharmacy Technician that is passionate to make a positive difference to our community, personal care home and institutional clients.

Pharmacy Technician

We are seeking a dynamic, self-motivated pharmacy technician to assist in the daily dispensary operations, working in a team environment, assisting our home care and institutional clients and collaborating with other health professionals and our pharmacists. Experience in a PacMed environment would be considered an asset.

This opportunity offers:

- A retail, community pharmacy that offers strong potential to provide expanded scope opportunities in addition to the store which offers a strong complement of front shop, HHC and OTC items
- No Evenings or weekends.
- Supportive environment with great hours, lots of daily direct patient care, and the opportunity to work collaboratively with your pharmacy and front store staff.
- Above peer salary, bonus and vacation entitlement, 3 weeks + depending on experience.
- Comprehensive group benefits program option
- All professional fees and insurance
- Continuing education opportunities (i.e. Expanded Scope — related training, etc.)
- Well-established pharmacy location, 65 years of operation

A relocation allowance and signing bonus is available depending on the candidate. The individual must currently or meet the standard to be licensed in Newfoundland and Labrador.
